REFLECTIONS

- INSIGHTS

Context: Public Health in Uganda

- ▶ Five Level System, Level One – Village Health Teams (VHTs)
- ▶ VHTs – Volunteer Community Health Workers
- ▶ Four individual VHTs make up one team
- ▶ VHTs had on average four days of training in 2010
- ▶ Role – Community education and recording vital statistics
- ▶ Engeye Health Center offers monthly supplemental trainings

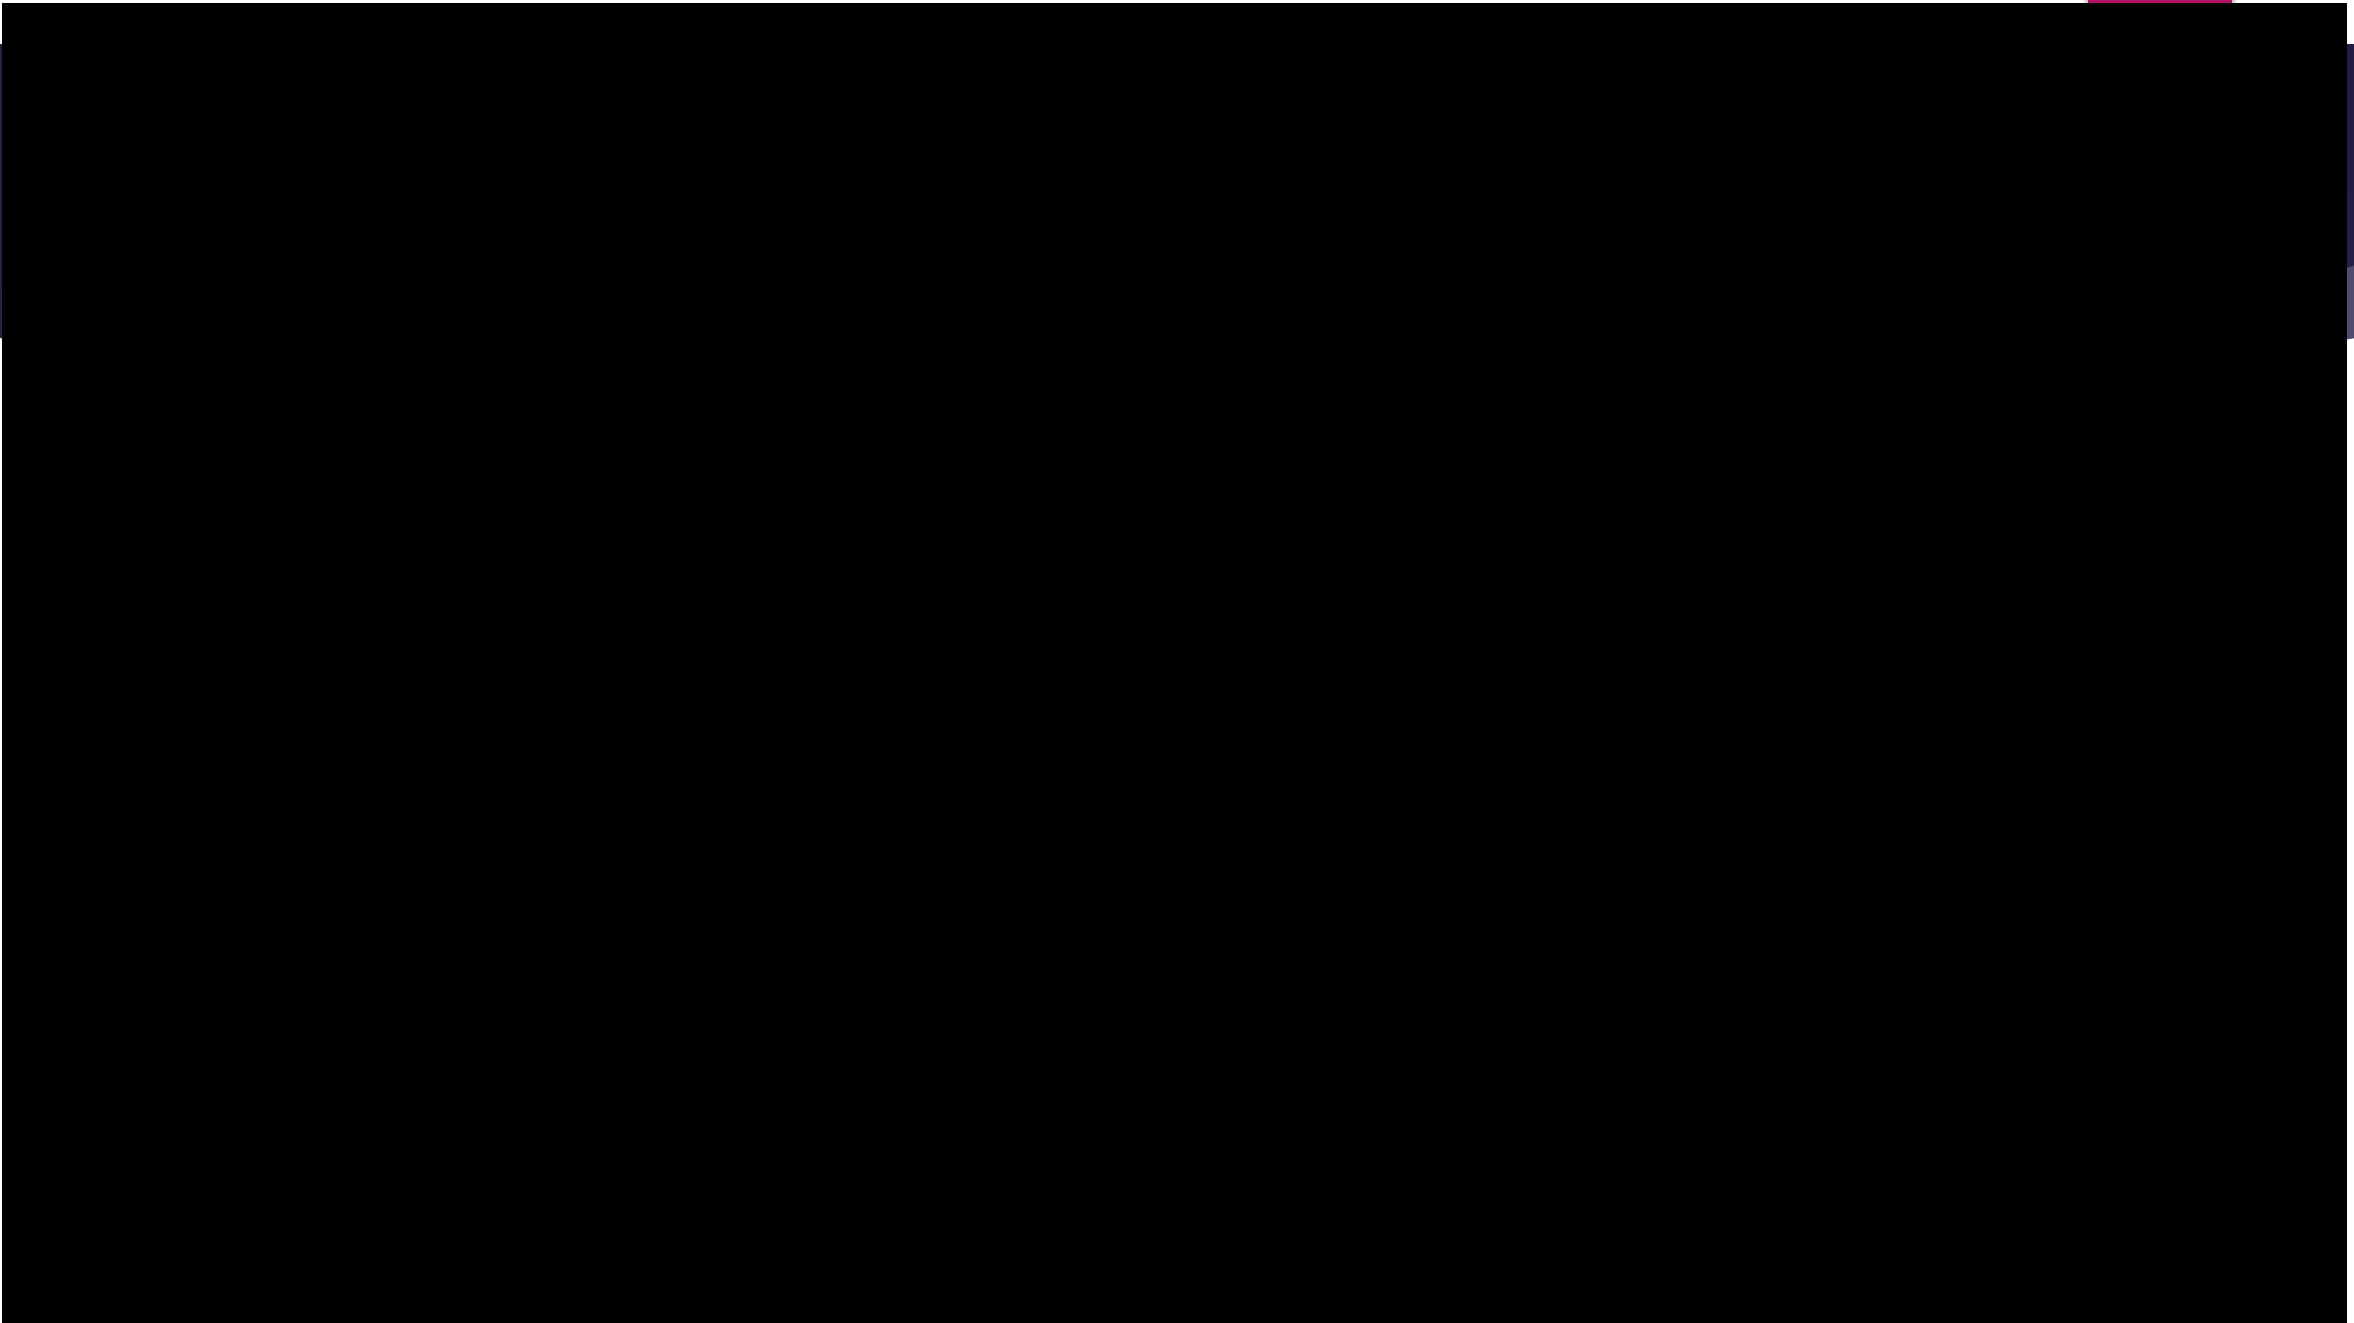

Internship Objectives

1. The student intern will conduct and complete an **Exploratory Evaluation** of the the Engeye VHT training program by the end of the internship.
2. The student intern will conduct at least five key informant **interviews** and two **focus groups** in the first month of the internship.
3. The student intern will conduct at least two public health based **trainings** with the Engeye COs by the end of the internship.
4. The student will assist staff in daily tasks of completing Ministry of Health **clinic reports** through out the duration of the internship.

Important Coursework

- ▶ Community Based Public Health
- ▶ Introduction to Global Health
- ▶ Program Development in Health Promotion
- ▶ Program Evaluation

INPUTS	ACTIVITIES	OUTPUTS	OUTCOMES	IMPACTS
VHTs COs Incentives (200x5000) Money Training Materials Location Teaching Aids Time Cell Phone to contact Preparation	Discussions/Offs Pre/Post Tests Trainings	<ul style="list-style-type: none">- VHTs have gained knowledge- VHTs refer patients- Patients come to the clinic- VHTs will give better first aid	<p><u>Short Term</u></p> <p>By Sept 2011, more 80% of the VHTs will get the majority of post-test questions</p> <p><u>Intermediate</u></p> <p>By Sept 2011, the community groups will show that the majority of people in the 7 villages in the parish are healthy, the staff & members of the Village Health Committee</p> <p><u>Long Term</u></p> <p>By Sept 2011, more the annual rates of return to people from the parish will increase by 50%</p>	<p>In 2011, the 90% of people in the villages will be able to understand how to prevent the main communicable diseases in the communities</p> <p>In 2012, there will be a 40% increase in the top 10 diseases seen at the clinic</p>

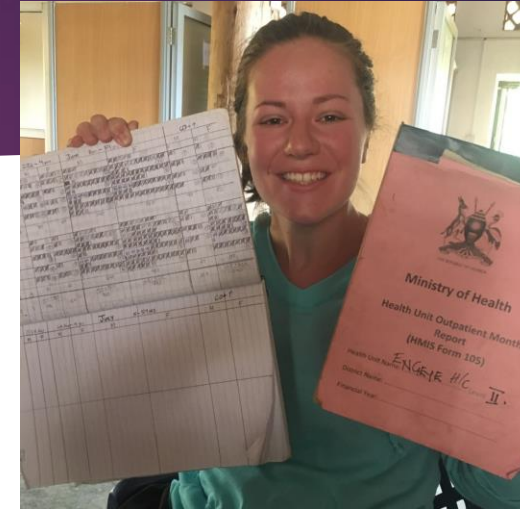

Engeye VHT Training Program Logic Model

Program Goal: Through monthly VHT training meetings conducted at EHC, VHTs will gain knowledge on vital health topics that they will disseminate to their villages to foster healthy practices, and create a connection between the clinic and the community to increase overall health.

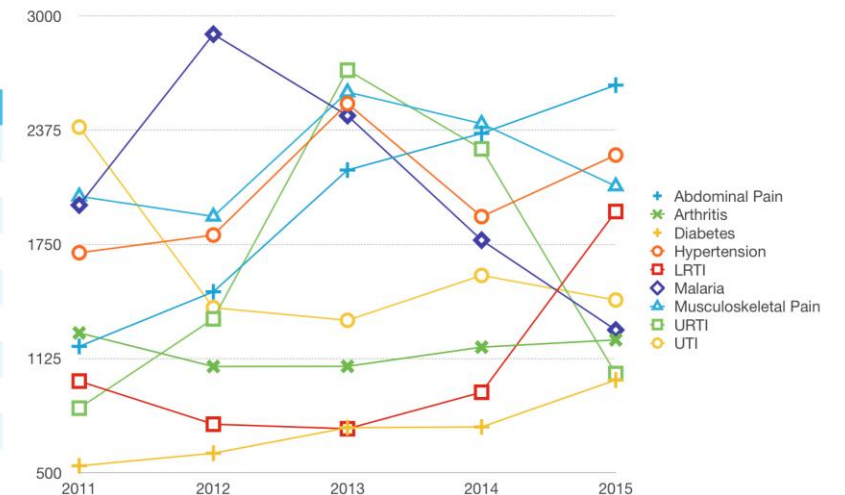

Additional Projects

- ▶ Engeye Public Health Goals and Objectives
- ▶ Daily Tallies and Reports
- ▶ EMR Diagnosis Trends
- ▶ Malaria Weekly Data
- ▶ Henry's Project
